CALL FOR PAPERS:

NORDIC INSULATION SYMPOSIUM

Tampere, Finland
13-15 June, 2011

INVITATION

The 22nd Nordic Symposium on Electrical Insulation, Nord-IS 11 will be held in Tampere, Finland from Monday, June 13 to Wednesday, June 15, 2011. The Organising Committee cordially invites you to participate in this event.

Scope

The symposium is an interdisciplinary forum for open discussion of ideas, research results and practical experience on electrical power insulation mainly in Nordic countries. It is addressed to PhD students, researchers and engineers working at research institutes, power industry and power supply companies and is also open for participants from outside of the Nordic countries. Contributions from young researchers are particularly welcome.

Topics

The preferential subject of the symposium will be:

Nanomaterials in Electrical Insulation

This subject covers diverse ideas and trends in the development of transmission and distribution systems for the future. Papers illustrating new research activities in the areas formulated below are especially welcomed, i.e:

- **insulation systems and insulation coordination for AC and DC applications**
- **measurement and testing techniques**
- **new materials and their service performance**
- **insulation systems for extreme environments**

DEADLINES

Submission of abstracts: 5 November, 2010

(Max.200 words. Indicate whether oral or poster is preferred)

Notification of acceptance: 17 December, 2010

Submission of papers: 18 March, 2011

Nord-IS 11 in Tampere: 13-15 June, 2011

DRAFT PROGRAM

Invited Speaker: The preferential subject will be introduced by Professor Keith Nelson, Rensselaer Polytechnic Institute, NY, USA.

Plenary and poster sessions: Monday and Tuesday, 13-14 June.

Symposium Banquet: The symposium banquet will take place in Viikinsaari, which is a small island of Pyhäjärvi lake in Tampere. During the boat trip from Laukontori square to Viikinsaari you can enjoy views of Tampere onboard M/S Tammerkoski.

Technical visit: On Wednesday, 15 June, a technical visit will be arranged to Areva T&D, Nokian Capacitors factory.

Organising Committee

Kari Lahti, Chairman	(TUT, FI)
Erling Ildstad,	(NTNU, N)
Joachim Holbøll	(DTU, DK)
Stanislaw Gubanski	(Chalmers, SE)
Pertti Pakonen, Secretary	(TUT, FI)

CONTACT AND INFORMATION

More details about the technical program, hotel accommodations and registration procedures will be available in the provisional program to be released 20 January, 2011. The symposium website will continuously be updated. Responses to this call for papers can preferably be made by email to the Nord-IS secretariat nord-is@tut.fi or to

NORD-IS 11
